

HELIDECK INSPECTION

CERTIFICATE

WIND OSPREY

CADELER A/S

The above-mentioned helideck has been inspected according to legal national and international requirements (AVV-HFP, EASA 965/2012, ICAO Annex 14 Vol. II and ICAO Heliport Manual) and, where applicable, to other national standards for offshore helidecks. The helideck has been found suitable for helicopter operations subject to below stated limitations, non-compliances and authorization by the approving authority. For more details see respective *Helideck Information Chart*.
